

Registry Lock Service .PT

A DOMAIN NAME IS ESSENTIAL
FOR YOUR DIGITAL PRESENCE:

**PROTECT IT WITH REGISTRY
LOCK SERVICE!**

The .PT ensures the registration and management of domain names under .pt in accordance with high standards of security, reliability and quality.

Do you know that it is possible to have additional security protection on your domain with the Registry Lock Service, for only 0.75 euros/month?

With Registry Lock, a premium service from.PT, you will ensure additional security protection for the data associated with your domain, preventing unauthorized changes, transfers or removals.

HOW TO JOIN:

- 01 The administrative Entity must access the reserved area at www.dns.pt, after a request by the Registrant of the domain name.
- 02 Access the domain to which the Registry Lock Service is to be associated.
- 03 Subscribe to the service in the "Technical Configuration" menu, indicating the intended scope of protection and the authorized contacts.
- 04 Read and accept the applicable Terms and Conditions.
- 05 The Owner must validate the subscription to the service through the link sent to the email in the domain's contacts.
- 06 Access the "Payments and Invoices" menu and pay for the service subscription.

Price and validity

The service has a monthly cost of 0.75 euros, and is valid between the subscription date and the validity of the respective domain name.
